# COUNTY of VENTURA Resource Management Agency

Pursuant to Government Code section 65913.3, the County of Ventura –Planning Division is providing an example of a complete, approved housing development application for the following housing type: **Mixed Use**. This example is meant to provide an overview of the general content and format required in an application for the entitlement of that housing type. It is **not** intended to be an exhaustive list of all materials that may be required and may vary depending on project location and underlying zoning. Potential applicants should consult the appropriate zoning ordinance or Planning Division staff for further clarification on application materials required prior to entitlement.

\*Note: Some information may be redacted to preserve applicant privacy or the intellectual property contained within development plans. An unredacted version of a housing development application can be viewed upon request at the Planning Division public information counter at the Ventura County Government Center, Hall of Administration, located at 800 S Victoria Road, Ventura.

	7 cbWYdhi U`@UbXgWUdY`D`Ub`FYei]fYa Ybh	Required
: cf	a Uhi	
1.	Copies: Submit 2 hardcopies of the plan.	$\square$
2.	Size: Minimum of $24 \times 36$ inches, folded to no larger than $8.5 \times 14$ inches. Also include one set of $8.5 \times 11$ inch reductions.	
З.	Orientation: Include north arrow shown on each sheet, except detail.	$\square$
4.	Scale: Plans must be at a scale of 1 inch = $30$ feet or larger. For large projects with simple landscapes the scale can be reduced to 1 inch = $40$ feet if all symbols are legible, or multiple sheets can be used. Provide bar scale on the plan.	
5.	Lettering: All lettering must be legible and 1/8 inch or larger.	$\square$
6.	Page numbering: Number sheets consecutively: "Sheet of"	$\square$
7.	Simulations: Color photo simulations of the landscape must be provided for projects which could have a visual impact, including cell towers and projects located adjacent to designated or eligible Scenic Highways. Photo simulations must show the landscape's conceptual design including types, sizes and textures of plants; screening; and massing. The photos should be taken from various locations and/or angles from which the public would typically view the site. Before and after photo exhibits should be presented.	
8.	Screening elevations: Where screening will be provided by a fence, wall or vegetation, provide scaled elevations, or photo simulations, of the screening.	
9.	Note: Symbols/illustrations/simulations representing new plants should convey plant size at approximately 5 years growth.	
10.	Title block: Locate on the right-hand edge of each sheet, unless an alternative location would make it more legible. Include:

I hereby submit an application for the land use entitlement(s) and/or zone change identified in this application questionnaire, and certify that the information and exhibits submitted herewith are true and correct to the best of my knowledge.

I certify that I have read and understand all of the instructions and submittal requirements for my application package and have made a good faith effort to comply with these instructions and to provide all of the materials and information that are required for a complete application.

I hereby acknowledge that I have been informed of my right to make a written request to the County to receive notice of any proposal by the County to adopt or amend a general or specific plan, or a zoning ordinance or other ordinance affecting building or grading permits, prior to action on said item.

I certify that I am aware that the information provided in my application package may be subject to public inspection that occurs as a result of any request made in accordance with the requirements of the California Government Code [§6253(a) et seq].

COUNTY OF VENTURA
AUTHORIZATION OF AGENT TO ACT ON PROPERTY OWNER'S BEHALF
I hereby authorize the person identified below to act as my agent to apply for, sign, and file the documents necessary to obtain the permits required for my project (excluding the Notice to Property Owner, the execution of which I understand is my personal responsibility). My agent should receive copies of all notices and communications related to my project unless I have otherwise notified the County.
Project Description: NARROW LOT MIXED USE RETAIL OPPICE + DWELLING
(Include Permit # if available)
Project Location:
(Address, APN and other property identification as needed)
Name of Authorized Agent:
(Please Print)
Address of Authorized Agent:
Phone Number of Authorized Agent:
E-Mail Address of Authorized Agent:

#### PROPERTY OWNER ACKNOWLEDGEMENT

I declare under penalty of perjury that I am the property owner for the address listed above and I personally filled out the above information and certify its accuracy. Further, I agree that I and my agent will abide by all ordinances of the County of Ventura and that any approvals granted for this project will be carried out in accordance with the requirements of the County County of Ventura.

Property Owner's Name:		
(Pleas	e Print)	
Property Owner's Signature:		_ Date: 5/3/22
Property Owner's E-Mail Address.		
Property Owner's Phone Number:		
Note: A copy of the owner's driver's license, notarization, or o submitted with this form to verify property owner's signature. records.	ther verification acce The owner must be a	ptable to the agency <u>must be</u> as shown on the latest Assessor

# F.24. Biological Resources

Has an Initial Study Biological Assessment been conducted by a Qualified Biologist for this project? Yes No

If No, be advised that all projects that could impact sensitive biological resources must provide an Initial Study Biological Assessment (ISBA) with the project application. This includes projects located-on or adjacent-to land with native vegetation, on land within 300 feet of watercourses or wetlands, on land used by animals for movement between habitats, or on land that provides other habitat for sensitive species. Discuss your specific project with the Planning Division staff to determine if an ISBA will be required.

## F. 25. Protected Trees

Will any trees protected by the Ventura County Tree Protection Ordinance be potentially impacted by this project? Yes No

Note: Potentially impacted trees include not only the protected trees that are directly part of this request, but also any other protected trees whose tree protection zones (TPZs) are within 20 feet the limits of the construction area (including access drives and utility easements). This includes trees growing on adjacent parcels if their TPZ extends onto the subject parcel. The TPZ extends out from the trunk to 5 feet beyond the dripline, or a minimum of 15 feet from the trunk, whichever is greater.

If Yes, provide the following information.

- a. Has an Arborist Report, prepared in compliance with the Content Requirements for Arborists Reports, been submitted? Yes No (If No, please consult with the Planning Division.)
- b. Has all other required documentation per the *Submittal Requirements for Tree Permits & Authorizations* been submitted? Yes No Unsure
- c. Number of prior protected trees removed from the parcel for reasonable access to or use of property:

No. of oaks: No. of sycamores: No. of other protected trees: Unknown

d. Number of prior protected trees removed from the parcel for agriculture within the last 12 months?

No. of trees: Unknown

e. Provide the following information about any potentially impacted protected trees. Complete one row for each tree or stand of trees of the same species, heritage status, action and general location.

ID #	No. of Trees	Tree Species	Heritage (90+ inches girth*)	Action (remove, alter, encroach)	Tree Location (include reference to a fixed landmark)
Ex.	5	Oak	No	Remove	Back of lot; near SE corner of proposed building.
1					
2					
3					

ID #	No. of Trees	Tree Species	Heritage (90+ inches girth*)	Action (remove, alter, encroach)	<b>Tree Location</b> (include reference to a fixed landmark)
4					
5					

\*Girth is the circumference of the trunk, generally measured at 4.5 feet above the ground. (This position may vary depending upon where the waist of the tree is—the narrowest trunk point is typically the goal—and many other factors.) If there are multiple trunks, measure each and add their measurements together; for heritage trees only the two largest trunks are measured.

f. Have any of the above actions (removal, alteration, encroachment) already occurred?

## Yes No

If Yes, explain (include tree or tree stand ID#):

Date work was performed:

g. Reason for the above request (indicate if more than one reason, e.g., one oak tree (ID# 1) is hazardous per Arborist Report and 4 oak trees (ID# 2-4) need to be removed to construct building):

# COUNTY of VENTURA Resource Management Agency

Official building plans and architectural drawings for this project have been omitted per state and federal law, but are available for inspection, but not copying, on the premises of Ventura County Planning Division as public records.
